Welcome to Pentire's 10th Annual Sale.

I look forward to hosting the sale once again on 13th August 2022.

Time sure does go by very quickly. Ten years ago, it did not seem like I held the first of the Pentire Angus Annual sales.

The last twelve months have seen such extraordinary seasonal conditions combined with robust cattle markets. They have been a blessing to the beef industry and the whole agriculture sector. It has put us in a position to take full advantage of these excellent conditions and markets. We are meeting the challenges of the preceding drought head-on and coming out the other side with leaner, meaner, more efficient enterprises. With vehicles, machinery and infrastructure being updated or replaced across the beef industry. The sector will be safer, more productive and firmly positioned to prosper into the future. It is imperative to be paying attention to the quality of the genetics we are introducing into herds in these excellent market conditions. So we can have quality cattle available to take advantage of these excellent seasonal and market conditions in the future.

Our job as cattlemen is to breed outstanding cattle, so we are in a position to supply the markets with what they want, which starts with bull selection. The twenty-eight bulls in this catalogue will sire thicker, bigger butted, muscular toplined calves, enabling you to make more dollars on your sale day. Timing is everything, and 13th August 2022 will be the day to prepare for the opportunities that lie ahead. Pentire Angus offers thirty-one years of commitment to breeding the very best we possibly can. And many more years ahead and hopefully generations. Quality Pentire Angus genetics will put you and your cattle in the best position to take advantage of the markets and seasons. The genetics up for sale have diligently researched and the matings carefully planned so they can add carcass shape, thickness, efficient doing ability, outstanding phenotype and in the long term leave you with an excellent line of great-looking, fertile, functional females.

The Pentire Angus top quality bulls are presented each year through the annual sale in perfect condition so the buyer can view them and their genetic merit to the fullest. Each Pentire Angus bull is ready to go straight to work for you and your herd. On Pentire Angus breed character and type, this is the evenest, thickest, most potent draft presented, and I can confidently describe this catalogue of bulls as the best back end to the Pentire Angus Annual sale as ever produced.

I am so grateful and incredibly proud of the many success stories achieved by Pentire Angus genetics over the last twelve months. Give me a call and let me know of any success stories you have using Pentire Angus genetics. I would love to hear and share them with you. If you need any help selecting a bull or would like to view the bulls, give me a call.

I am so grateful to have so many great supporters of the Pentire Angus program, whether you have purchased, helped out or followed what we do here at Pentire Angus.

Thank you! Truly Appreciated

Justin Richards

SALE INFORMATION

INSPECTION

Sale cattle may be inspected anytime by arrangement with the vendor or the agent. Bulls will be penned by 10 am sale day.

ADDITIONAL INFORMATION

A supplementary sheet will be available with weights & scrotal sale day. GST: Prices for all lots sold will be GST exclusive. Gst will be added to the invoice.

REBATE

Vendor will provide a 2% rebate to outside agents introducing buyers in writing 24 hrs before the sale and settling on their behalf within 7 days.

DELIVERY

The vendor will provide delivery to most major selling centres in NSW. Or to your property for a small delivery fee to cover fuel expenses. As soon as possible following the sale. The vendor is willing to hold any animal over for two weeks free following the sale; after that, they will incur an agistment fee.

HEALTH

All bulls are vaccinated for vibrio and 7 in 1. Pentire Angus is located in a Bovine Johnes Protected area. Are Drenched with ausmectin and have received Multi Min shots.

SAFETY

Visitors enter the pens at their own risk. Children under the age of 16 are not allowed in the pens. At Pentire, all care and due diligence is undertaken to ensure livestock pose a minimum threat to our clients, staff, and us. However, we cannot predict nor guarantee their behaviour. All sale bulls have been assessed for temperament and are quiet to handle under normal circumstances. Unfortunately, sale day places abnormal pressure on bulls as they are not used to having a crowd of people around them, and so the behaviour of even the quietest bull can be unpredictable. While inspecting the sale bulls, we ask you to treat them with respect and don't overcrowd them with this in mind. Bulls may also fight in the pens, and at these times, they are oblivious. To their surrounding, including people.

Don't let others fool you, and good cattle can be good looking. Cattle with eye appeal can hang a good carcass, wean a big calf and make you a profit. Enjoy your cow base. Love how they look, how they function and let the cattle make you a profit.

**BUY your BULLS from a CATTLEMAN
not a SALESMAN.**

BINGO THE DONKEY

Castrated male, John

DOB: 03/12/2020

Sire: CHESTER

Dam: CHLOE

“ We will utilise our knowledge of the Angus Breed using their efficiency, doing ability and constitution. We are combining this with the maternal strength and carcass shape of the Pentire Angus Herd. Complimenting this with the appropriate outcross genetics will take our clients’ herds and the industry in general forward into the future by reducing the costs of production for our clients with cattle that can thrive on grass and stack the genetic gain in client’s herds for massive productivity gains. ”

- Justin Richards

HF ALCATRAZ 60F#

Pentire Angus Reference Sire HF Alcatraz 60F sold for \$200,000 at the Hamilton Farms 24th Annual Bull Sale. He has been admired by all who have laid eyes on him, especially at the National Western Stock Show in Denver 2019 and 2020. Alcatraz has tremendous width in his top from behind his shoulders back to his pins and finishes off with a wide butt exhibiting excellent muscle shape. He has that proud herd bull look to his front end, lots of crest and power with a nicely shaped head accompanied by perfect feet and leg structure. 'Pentire Angus are excited for the future of our HF Alcatraz 60F progeny.' They are born quickly with extraordinary early growth until weaning lots of thickness carcass shape, and they look fantastic. Alcatraz is the most exciting sire introduced into the Pentire Angus program of recent times. He is going to have a significant impact on our program for a long time to come.

Pentire Laura M35, dam of Lots 4 and 10.

• Opportunity does not knock; it presents itself when you knock the door down.

Notes: What a way to celebrate the start of the Pentire Angus 10th Annual Sale! The offering of Pentire Roast R40 as lot one has a B- muscle score. Great Ema with excellent structure moves effortlessly. Pentire Roast R40 has the look and design since he was a calf, big-footed, solid testicular development, muscle, power, mass, body, and shape. Being a son of the great Pentire Angus cow in Pentire Pride H36. She continuously keeps producing the great ones, Pentire Neopolitan N37, Pentire porkchop P28 and Pentire Rome R22, selling for the 2021 sale top price of \$22000 to the cook family last year. I am looking forward to getting more of Pentire Pride H36 daughters into production. Pentire Roast was used as a backup sire last spring. Suitable Heifers.

How to Register and Bid on AuctionsPlus

1

Go to www.auctionsplus.com.au to register at least 48 hours before the sale.

7

Fill in buyer details and once completed go back to Dashboard.

2

Select “**Sign Up**” in the top right hand corner.

8

Complete buyer induction module (approx. 30 minutes).

3

Fill out your name, mobile number, email address and create a password.

9

AuctionsPlus will email you to let you know that your account has been approved.

4

Go to your emails and confirm the account.

10

Log in on sale day and connect to auction.

5

Return to AuctionsPlus and log in.

11

Bid using the two-step process – unlock the bid button and bid at that price.

6

Select “**Dashboard**” and then select “**Request Approval to Buy**”.

12

If you are successful, the selling agent will contact you post sale to organise delivery and payment.

For more information please contact us on:
Phone: (02) 9262 4222

Thank You Pentire Angus Reaches \$22,000

Thank you for all your Support of the Pentire Angus breeding program at the 9th Annual Sale on the 14th of August 2021.

Were the first Australian progeny of HF Alcatraz 60F topped the 9th Annual Pentire Angus sale held at Greenmount Singleton NSW.

Both the **Top-Priced Bull** and the **Top-Priced Heifer** of the sale were the **progeny of HF Alcatraz 60F**. **Interest** in the Alcatraz 60F progeny was one of the many reasons 136 people were logged onto the sale through the online platform Auctions plus with **222 bids** coming in from **Queensland, South Australia, Tasmania, Victoria and New South Wales**. They were also having **4000 presale catalogue views** on Auctions Plus. Along with **30 registered bidders** on the farm. Despite the Singleton Local Government Area being in lockdown with the ongoing covid-19. The sale was an outstanding success with a total clearance of 21 bulls and 18 registered heifers and Charlie the donkey. Being **sold** from **Queensland, Victoria** and throughout **NSW**, including out to **Coolah** back to the coast at **Lansdowne** up to **Walcha New England Region** and continued **strong local Support** with many of whom were **repeat buyers**. They proved that Pentire Angus Genetics perform in a great range of environments, with their added muscle, constitution, doing ability and performance, and the tremendous maternal attributes of the females left in their herds for future years.

The **Top Price** Lot 8 **Pentire Rome R22** the first son of **HF Alcatraz 60F** to be **sold** in **Australia**. Rome R22 weighed in

at an **impressive 610kg** at only **12 months** of age. Sold for a **New Stud Record** of **\$22000** to the Cook family of Barana Coolah central west NSW Simmental and Angus breeders. He was attending the sale, explicitly chasing the Alcatraz genetics. After seeing Rome on Auctions plus. Mr Cook said he has been looking for a new sire, and Rome R22 fits the bill with his overall length and depth of body, softness, **carcase attributes**, and a **strong head** and muzzle. He certainly took my eye on Auctions Plus when I looked at him on the website, he is by a new outcross sire, and out of a magnificent dam, Mr Cook told the land newspaper. I consider Rome R22 an outstanding individual and perhaps the best sire to be offered to date in the Pentire Angus Annual Sales. Rome is a very thick and influential sire whilst being very sound and structurally correct. And comes from a very consistent dam in Pentire pride H36.

The next best price for the bulls of **\$17000** was Melinda's impressive sire **Pentire Quick Silver Q15**. He is sired by the USA Bull in S PowerPoint WS 5503. Q15 Having a great skin and hair type, very easy doing type of bull with plenty of fat covers and extraordinary pre-sale weight of **866kg** (3 weeks short of his 2nd birthday). He was purchased by Goorangoola Pas Co, who also purchased the next lot in **Pentire Quantum Leap Q19, \$14000** sired S PowerPoint out of the ever consistent dam **Pentire Pride H36**. Q19 is just the absolute powerhouse of a sire weighing in at **946kg**,

exhibiting the remarkable skin and hair that Powerpoint has been transmitting to his progeny in the Pentire Angus breeding program. Goorangoola Pas Co purchased a third son, S PowerPoint WS 5503 son in **Pentire Queasy Q18 \$14000** a heifers first calf of Pentire Margret N57. He had so much thickness, softness and power, and excellent body depth and weighed an impressive **850kg**. I cannot wait to see the resulting progeny of these three very impressive sires at Goorangoola Pas Co. Mr Bower from Goorangoola Pastoral Co commented that he needed some sires to join his herd as he is looking to breed steers for the antibiotic-free markets into the future. We have purchased from Pentire for the last few years because they are great local bulls, acclimatised to the local area, and ready to go. Congratulations to Goorangoola Pastoral Co for purchasing these great value sons of S Powerpoint, or **were they cheap?** Considering two sons of S, PowerPoint sold for **\$130,000** and **\$100,000** sale prices soon after.

I Bower, another Goorangoola district landholder, purchased 2 bulls Pentire Quest Q40 for **\$12000** a son of Mt Hunter Magistrate M5 weighing at a very impressive **856kg** at only 22 months old. A more prominent framed sire with lots of thickness and softness with the ability to finish efficiently on pasture. Also purchasing Pentire Quickstop Q39 for **\$10000**, being a favourite of mine this year. I had Quickstop Q39 semen collected in the lead up to the sale for use within the Pentire Angus herd. To introduce Q39 beautiful phenotype great carcass shape, soft coat and b muscle score into the Pentire Angus breeding program. I find traits that are not readily available in the one genetic package within the Angus breed.

Pentire Rudolph R5 \$13000 is heading to First-time buyers Dean Wood and Joe Berry of Buri West Walcha up on the New England Region and weighing in at **662kg**, equal heaviest of the 17/18-month-old sires. To join their wonderful herd of females (the 1st calvers I saw when I delivered R5 were impressive). Pentire Rudolph R5 will compliment them nicely with his softness, thickness, body depth, and maternal background.

Scott Robson and the family of Lostock also purchased two sires for their herd. With first being the heaviest muscled bull in the sale Pentire Quirky Q29 \$11000 weighing a credible 786kg 23months, with great strength of the spine and very soft coat. Their Next purchase is Pentire Roberto R14 \$10000 equal heaviest of the 17/18-month-old bulls exhibiting tremendous length, thickness, the strength of the spine.

Inchbold Farming purchased two sires for their Yarrowonga Victoria-based operation **Pentire Rover R8 \$10000** and Pentire Quince Q37 \$7000 with their great traditional

Angus qualities of extra thickness, carcass shape and earlier maturity patterns suited to their operation.

Stiks Holdings Singleton purchased two sires of great value in Pentire Quintessential Q34 \$5000, a natural calf of donor Pentire Leah L36, the dam of the top-priced heifer Pentire Leah R36. She was also pictured on the back cover of the catalogue. And Pentire Ricardo R17 \$6000 who is a full brother to last year top price heifer in Pentire Evilest Q1 \$4250. Some very astute purchasing.

The **top-priced heifer** was the **HF Alcatraz 60F** daughter **Pentire Leah R36 \$8500** who sold to repeat clients Mathew (Frosty, so I know whom I am talking about) and Kel Frost Willow Tree, whose excellent dam Pentire Leah L36, who is pictured on the back cover of the catalogue with Pentire Leah R36 at the side. I am so looking forward to seeing Leah in the show ring in the future, so exciting.

Siobhan Caitling Denman purchased four very nice heifers, including the **second top price** heifer **Pentire Leah R18 \$7000** has an extraordinary presence of an honest matron in the making, having the extra length of the body, extra thickness and different carcass shape that I like and prefer in the Pentire Angus breeding program. Next on Siobhan's shopping list was **Pentire Evilest R6 \$6500** by Alto Highlander H6, having lots of natural presence, depth of body, extra thickness, the extra length of body and lots of Angus breed character. **Pentire Margret R10 \$6500** the beautifully thick made daughter of MT Hunter Magistrate M5 and last and indeed not least purchased the baby butter box of a heifer in **Pentire Gretel R42 \$4500**.

Volume purchaser of the heifers was Steve Little of Pittsworth Queensland, Purchasing five lots. Which included **Pentire Lavish R7 \$6000** excellent type of heifer sired by Mt Hunter Magistrate M5 had been AI to HF Alcatraz 60F. Next on his list of astute buying was **Pentire Evilest R35 \$4000** is a beautifully made heifer with the Pentire thickness through her stifle and top-line. Also, Evilest R35 is out of the same dam as Pentire Quick Stop Q39. Also on his shopping list was **Pentire Laura R38 \$4000**, a natural calf of my HF Prowler 43U donor cow Pentire Laura M35, displaying extra thickness, growth and softness in an excellent young female. These females will be a great addition to Steve's sons stud herd.

Algie family purchased five females. The soft as butter, growth and thick made **Pentire Heather R37 \$4000**. One of the favourites Pentire Pride R20 **\$4000** with her extra length of the body, great depth of thigh of this exceptional Pentire Angus female. They also purchased **Charlie the donkey \$3250** as a guardian for their exceptional line of heifers.

Why choose Pentire Angus?

Pentire Angus utilises the best outcross genetics from across the world, which provides a point of difference to most of the Australian Angus population. These genetics have the ability to add carcass shape, thickness, easy doing ability, outstanding phenotype and, in long term, leave you with an excellent line of great-looking, fertile and functional replacement females. Our top-quality bulls are presented each year through our annual sale in excellent condition, so you,

as the potential buyers, can view them and notice their genetic merit to the fullest. Each one of our bulls are ready to go straight to work for you and your herd. Our Pentire Angus bulls will go out and breed phenotypically

Pentire Pride H36, Dam of Lot 1.

great looking cattle that will take Pentire Angus' client herds, and the industry in general, forward in today's modern market by reducing production costs for our clients. A highly efficient production system does not mean low inputs. On the contrary, the best way we find to achieve a low production cost is to increase output, which means optimising every individual animals' performance on each hectare of land we have. We are stacking the genetic gains in client herds for massive productivity gains. To make what we do in this challenging industry worthwhile, we require bulls with excellent structure, muscle, yield, efficiency and fabulous good looks.

DISCLAIMER AND PRIVACY INFORMATION

Attention Buyer

Animal details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder or owner of the animal. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, Angus Australia will assume no responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.

Parent Verification Suffixes

The animals listed within this catalogue including its pedigree, are displaying a Parent Verification Suffix which indicates the DNA parent verification status that has been conducted on the animal. The Parent Verification Suffixes that will appear at the end of each animal's name.

The suffix displayed at the end of each animal's name indicates the DNA parentage verification that has been conducted by Angus Australia.
PV : both parents have been verified by DNA.
SV : the sire has been verified by DNA.
DV : the dam has been verified by DNA.
: DNA verification has not been conducted.
E : DNA verification has identified that the sire and/or dam may possibly be incorrect, but this cannot be confirmed conclusively.

Privacy Information

In order for Angus Australia to process the transfer of a registered animal in this catalogue, the vendor will need to provide certain information to Angus Australia and the buyer consents to the collection and disclosure of that information by Angus Australia in certain circumstances. If the buyer does not wish for his or her information to be stored and disclosed by Angus Australia, the buyer must complete the form included below and forward it to Angus Australia. If the form is not completed, the buyer will be taken to have consented to the disclosure of such information.

.....

BUYERS OPTION TO OPT OUT OF DISCLOSING PERSONAL INFORMATION TO ANGUS AUSTRALIA

If you do not complete this form, you will be taken to have consented to Angus Australia using your name, address and phone number for the purposes of effecting a change of registration of the animal(s) that you have purchased, maintaining its database and disclosing that information to its members on its website.

I, the buyer of animals with the following idents.....
