WELCOME, AND HAPPY BUYING

Thank you for the confidence you have placed in our brand and breeding program. I am a believer in real cattle with foundational real-world production and performance and am inspired by the cattle people who work hard every day to make a living.

I realise there is a bull sale every day at this time of year, with so many choices of bulls and studs, which is why I want your experience with Pentire Angus to be much more than buying a bull. My goal is to build a lasting relationship and be a reliable source for your Angus genetics you can count on to make your cattle enterprise thrive.

It is with your support that the Pentire Angus program has grown, continually improving and reaching milestones I had not dreamed possible - allowing the Pentire Angus program to flourish and keep developing. The barometer on which I gauge everything I do is based on how it will affect the productivity and profitability of the customers I serve.

I am continually working to breed and provide better seedstock each year to, in turn, make your cattle better and more profitable - that is my uncompromising commitment. My disciplined breeding program does not follow the latest fads. Rather, I breed cattle for real cattle people who sell quality kilos of beef for a living, doing so efficiently and as profitably as possible.

My unwavering focus is on maternal traits of the cow herd, emphasising the basic profit driving traits of fertility, longevity and maternal production. My breeding program is continually advancing, improving, refining and taking advantage of embryo transplant technology on our superior cows to make each calf crop stronger than the last. The 2024 sale reflects these efforts.

Thank you for your support – it is gratefully appreciated,

Justin Richards

INSPECTION

Buyers can inspect sale cattle at any time by arrangement with the vendor or the agent. Cattle will be penned by 10am sale day.

ADDITIONAL INFORMATION

A supplementary sheet with weights and scrotal will be available on sale day.

GST: Prices for all lots sold will be GST exclusive. GST will be added to the final invoice.

REBATE

The vendor will provide a 2% rebate to outside agents introducing buyers in writing 24 hours before the sale and settling on their behalf within 7 days.

DELIVERY

The vendor will provide delivery to most major selling centres in NSW. Alternatively, the vendor will delivery to your property for a small fee to cover fuel. This will occur as soon as possible following the sale. The vendor is willing to hold any animal, free of charge, for 2 weeks following the sale, after this time, an agistment fee will be charged

HEALTH

All animals are vaccinated for Vibrio and 7 in 1. Pentire Angus is located in a Bovine Johne's protected area. All animals are drenched with Ausmectin and have received Multi Min shots.

SAFETY

Visitors enter pens at their own risk. Children under 16 are not allowed in pens. At Pentire, we carry out all care and due diligence to ensure livestock pose a minimum threat to our clients, staff and ourselves. However, we cannot predict or guarantee their behaviour. All sale animals have been assessed for temperament and are quiet to handle under normal circumstances. Unfortunately, sale day places abnormal pressure on livestock as they are not used to crowds which may make the behaviour of even the quietest animal unpredictable. Bulls may also fight in the pens making them oblivious to their surroundings, including people.

“ Our customers are important to us.
At Pentire Angus, our handshake is our work
and our customers are our friends. ”

FRESH GENETICS FOR PENTIRE

PENTIRE IS A GREAT CHOICE

HF Tibbie 21J & HF HI-Country 7L

HF Tibbie 21J was purchased by Pentire Angus, in partnership with Target Livestock, at the 2022 Angus Collection Sale for \$CAD40,000 (\$AUD 43,934) from world-renowned Hamilton Farms Rocky View, Canada.

This purchase was the next big step of genetic progression for both of our programs, offering generations of proven quality and performance throughout her pedigree.

She is a young female who combines unparalleled phenotypic appeal, maternal potential and an impressive EPD set. We are immensely grateful for this opportunity and cannot thank Rob, Gail and the Hamilton family enough for their support and encouragement in our new endeavour!

We anticipate a bright future ahead. Our hope was that she would turn out to be unique and be valuable donor cow. Tibbie 21J has not disappointed us – she has done all that was asked of her, and is definitely a valuable addition to our programs, with calves due at Pentire this July.

HF Hi-Country 7L was the pregnancy Tibbie 21J was carrying when we purchased her. 7L went on to be the 2024 Hamilton Farms Inc. Bull and Select Female sale high seller for \$CAD 185,000 CAD (\$AUD 217 800).

Pentire Angus uses the best outcross genetics from across the world, which provide a point of difference to most of the Australian Angus population. These genetics have the ability to add carcass shape, thickness, easy doing ability, outstanding phenotype and, in the long term, leave you with an excellent line of great looking, fertile and functional replacement females.

Our top quality bulls are presented each year through our annual sale in excellent condition, so you, as the potential buyers, can view them and notice their genetic merit to the fullest. Each one of our bulls are ready to go straight to work for you and your herd.

Our Pentire Angus bulls will go out and breed phenotypically great looking cattle that will take our client herds, and the industry as a whole, forward to today's modern market by reducing production costs. A highly efficient production system does not mean low inputs. On the contrary, the best way we find to achieve a low production cost is to increase output, which means optimising every animals' performance on each hectare of land we have. We are stacking on the genetic gains in client herds for massive productivity gains.

To make what we do in this challenging industry worthwhile, we require bulls with excellent structure, muscle, yield, efficiency and fabulous good looks.

“Common sense and cattle sense is the approach we use to breed top-quality lots for Annual Sale.”

HF Hi-Country 7L 2024 Hamilton Farms Inc. Bull and Select Female sale High seller for \$185000 CAD (\$217800 AUD). Son of HF Tibbie 21J

Perc	41	52	49	63	97	99	98	97

Pentire Uno U2 is the first fully imported Canadian embryo from the renowned Hamilton Farms herd in Rocky View, Canada. U2 displays lots of length, a neat flat back through the chine, and well-laid-in shoulders. He looks like a maternal sire, as his flush sisters are fantastic. Check out a flush sister, Pentire Miss Erica T50, lot 28. Suitable for heifer joinings.

Offered for sale by Target Livestock, Tibbie U10 is the first ever female to be available from the Target herd. We knew it was going to be tough to part with our first heifer, you only get one shot at a good first impression, so it had to be one of our very best. U10 certainly sets the bar for quality. A standout since birth, her growth, length of body & easy fleshing ability has been unmatched. She is good footed, structurally correct & beautifully natured. Dive into her pedigree & she is a unique breeding piece, the result of an embryo from Hamilton Farms, Canada. Sired by Poss Maverick & out of the world renowned Tibbie cow family. U10 is completely halter broken. Take her into the spring show season ready to go or put her in your front paddock ready for breeding.

GUARDIAN DONKEYS

Under certain conditions, guardian donkeys can be a suitable option to guard your cattle.

Donkeys are aggressive towards predators and may provide indirect protection for domestic animals. They are most successful in protecting livestock in small and level pastures, where the donkey can see all or most of the area from one location.

In open paddocks use approximately one donkey to 200-300 cows, in undulating/scrubby paddocks, this should be reduced to 1 donkey to 100 cows. In extensive situations, aim for one donkey per camp.

WELCOME TO OUR 2024 SALE

What a difference 12 months can make coming of the back of a very difficult autumn/spring, and early summer for most parts of the country in 2023. Then in came 2024 with some nice general widespread rain. The opportunity to get in summer and winter pastures has been amazing to say the least, in doing so we are pleased to be offering our bull sale draft as grass fed.

This year's sale is the first offering of progeny of our new stud Minnie Vale Quantong (PP). A bull we think a lot of. Strong head, jaw wide muzzle, structure, calving ease birthweights. A tremendous amount of red meat but with the ability to soften quickly. As you will see throughout the sale draft he has left his mark.

With the poor season late last year we were ruthless with our selection of our bulls for the sale. In doing so we are offering four outstanding poll Charolais bulls.

This year we are also offering for the first time in our history, five elite females. Three of the heifers are broken in ready to go for the springtime show and Charolais Youth Camp in October. There will be a 5% rebate off

the sale price if purchased by a member of the Charolais Youth.

Our vision of Charolais cattle has not changed. Moderate, functional type of Charolais that excels in calving ease, rapid growth, muscle development, and overall structural integrity. These attributes, combined with their versatility to thrive in various operations, make our cattle a valuable addition to any program. With recent sale yard trends for feeder cattle, Charolais cross calves are back in demand for their weight for age and ability to finish on grass.

In a tightening economy producers need value for money and return on investment. We believe buyers achieve this through a combination of value, genetic gain, and years of service.

This year, we are delighted to present an exceptional line-up of bulls and females for sale. We have full confidence you will find an animal among our offerings that perfectly suits your specific requirements.

Travis Worth

Stud sire potential. A bull that ticks all the boxes. Strong headed, clean fronted, long as a train but still has tremendous capacity. Great spine and muscle pattern and soft to boot. He stands on great bone. His structure is spot on, he moves so freely. Strong growth data, carcass weight and retail beef yields in his EBVs. His dam, an Exclusif daughter, has never missed for us no matter the joining.

A real look at me bull and for good reason. Another red factor clean polled bull. An earlier maturing bull. He has sire appeal, clean fronted. He is a powerfully made calf without being offensive and is soft as butter. A good growth figures calf with good fat numbers. A free moving bull that will add kilos to your calves.

Gold and polled. Another great type of bull. So much heart and girth in this bull. He is strong headed, clean shouldered, long through the middle clean sheathed and great testes. A huge amount of red meat from the tips of his blades to his pin bones. His dam is amongst the broodiest cows you will see in the breed. He is backed by a stable and safe EBV spread across the board.

The baby bull of the draft and very much a mirror image of the U2 bull, except his colour. He has strength of spine that carries that red meat though his plates. Tidy sheathed. A quiet easy keeping bull that will add vigour to your program.

Cowgirl Cattle Co
Fiona ^{(AI) (P/S)} TS1K4E ^(S)

An early maturing red factor heifer. Yes, she is built a little lower to the ground, but she makes up for that with width, capacity, and yield. For a heifer made this way she is still very smooth in her movements. From the Cowgirl Fiona line all the heifers have been very milky. We expect the same here. Good EBVs across the board. She is broken in ready to show. AI to Wells Just-In 3861 backed up to Blugene Sharpshooter.

DISCLAIMER & PRIVACY INFORMATION

ATTENTION BUYER

Animal details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder or owner of the animal. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, Angus Australia will assume no responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.

PRIVACY INFORMATION

In order for Angus Australia to process the transfer of a registered animal in this catalogue, the vendor will need to provide certain information to Angus Australia and the buyer consents to the collection and disclosure of that information by Angus Australia in certain circumstances. If the buyer does not wish for his or her information to be stored and disclosed by Angus Australia, the buyer must complete the form included below and forward it to Angus Australia. If the form is not completed, the buyer will be taken to have consented to the disclosure of such information.

PARENT VERIFICATION SUFFIXES

The animals listed within this catalogue including its pedigree, are displaying a Parent Verification Suffix which indicates the DNA parent verification status that has been conducted on the animal. The Parent Verification Suffixes that will appear at the end of each animal's name.

The suffix displayed at the end of each animal's name indicates the DNA parentage verification that has been conducted by Angus Australia.

PV: both parents have been verified by DNA.

SV: the sire has been verified by DNA.

DV: the dam has been verified by DNA.

#: DNA verification has not been conducted.

E: DNA verification has identified that the sire and/or dam may possibly be incorrect, but this cannot be confirmed conclusively.

BUYERS OPTION TO OPT OUT OF DISCLOSING PERSONAL INFORMATION TO ANGUS AUSTRALIA

If you do not complete this form, you will be taken to have consented to Angus Australia using your name, address and phone number for the purposes of effecting a change of registration of the animal(s) that you have purchased, maintaining its database and disclosing that information to its members on its website.

I, the buyer of animals with the following idents _____

AuctionsPlus

How to register and bid on AuctionsPlus

1

Go to www.auctionsplus.com.au to register at least 48 hours before the sale.

2

Select **"Sign Up"** in the top right hand corner.

3

Fill out your name, mobile number, email address and create a password.

4

Go to your emails and confirm the account.

5

Return to AuctionsPlus and log in.

6

Select **"Dashboard"** and then select **"Request Approval to Buy"**.

7

Fill in buyer details and once completed go back to Dashboard.

8

Complete buyer induction module (approx. 30 minutes).

9

AuctionsPlus will email you to let you know that your account has been approved.

10

Log in on sale day and connect to auction.

11

Bid using the two-step process – unlock the bid button and bid at that price.

12

If you are successful, the selling agent will contact you post sale to organise delivery and payment.

For more information please contact us on phone (02) 9262 4222
or email info@auctionsplus.com.au
